## MUTUAL AID AGREEMENT FOR UTAH WATER AND WASTEWATER AGENCIES

THIS COOPERATION AGREEMENT is entered into this day of <sup>5<sup>th</sup></sup> January, 2011,  
by Santaquin City and Utah Water/Wastewater Agency Response  
Network (UT-WARN) members.

### ARTICLE I. PURPOSE

This Agreement is made and entered into by those water and wastewater agencies that have adopted and signed this Agreement to provide mutual assistance in times of emergency. This water and wastewater mutual aid program is established to provide a method whereby participating water and wastewater utilities which sustain damage from natural or man-made disasters can obtain emergency assistance, in the form of personnel, equipment, materials and other associated services necessary, from other water and wastewater utilities. The Agreement also provides a method whereby responding utilities may be provided with reimbursement for personnel, equipment, materials and other associated services that are made available on an emergency basis. Nothing herein is intended to replace or terminate any pre-existing agreement between any of the Participating Utilities that provide assistance by one Participating Utility's department within the political boundaries of another on a regular or routine basis. Participating Utilities intend by this Agreement to commit to assist each other whenever possible, while allowing each Participating Utility the sole discretion to determine when its personnel and equipment cannot be spared for assisting other Participating Utilities.
