#### Santaquin City Annual Report — 2020 Police Department

#### POLICE CHIEF'S MESSAGE

Santaquin City Mayor and Council:

The following report details the Santaquin Police Department's activities throughout the past year. As you all know, 2020 was a very different and difficult year for all of us due to the Covid 19 Pandemic. For a time, we were asked to limit contact with the public wherever possible, therefore some of our officer-initiated numbers have gone down, when they normally would increase. However, you will find that despite the difficulties our department faced, our officers remained busy with requests for assistance from the public.

It is specifically interesting to note some of the trends this year. Unfortunately, the number of assaults, domestic violence situations, vandalism, DUI's and drugs increased, while our DCFS reports (child abuse/neglect), traffic stops, citations and traffic accidents decreased. There may be a correlation between these numbers and the fact that children/adolescents were out of school, and families were quarantined at home in a confined environment. Schools are very big contributors to DCFS reports where they see children suffering at school. With families being quarantined, their travel was naturally minimized, thus decreasing accidents. With many unemployed during this time, finances among other conflicts could be a cause for so many domestic violence encounters.

While many of our community programs were temporarily put on hold, we look forward to the future with optimism. We appreciate your constant support and hope to gradually get back into a new and improved "normal".

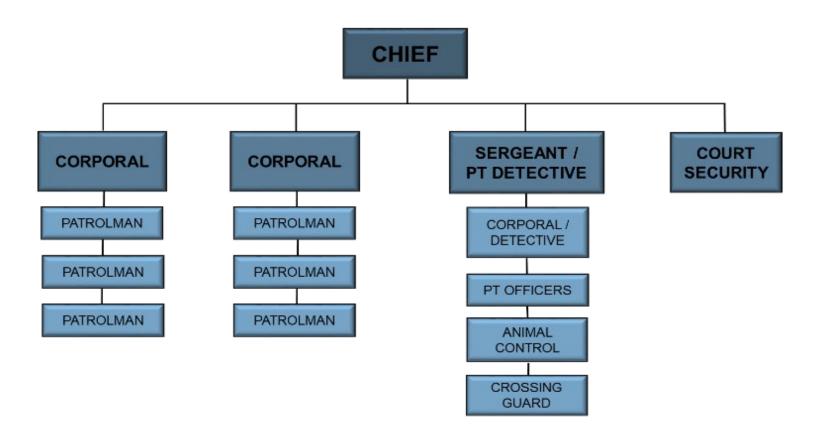

As you look over the information in the following pages, please contact me with any questions you may have.

Respectfully,

Rodney Hurst Chief of Police

#### **Professional Standards**

The Police Department strives to ensure employees act in a manner consistent with Santaquin City's mission, values, and objectives. Complaints from citizens and alleged policy violations are taken seriously. Investigations are done to determine legitimacy of the complaint or violation and appropriate action is taken accordingly.

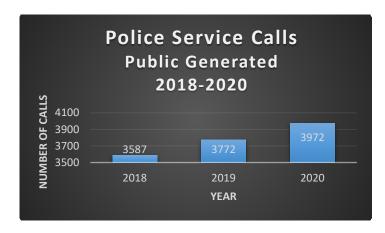

## **Citizen Complaints**

Citizen complaints are those that come from outside sources, including third party complaints. Citizen complaints are categorized into four types: minor complaints, major complaints, service complaints, and confidential complaints. Complaints are thoroughly investigated and

the Police Chief notifies the complainant in writing of the final disposition.

#### **Police Service Calls**

Police service calls include requests solely through dispatch, made by citizens for police service as well as officer generated activity, some administrative duties, and follow up on previous calls. These do not include the calls received through the office in which dispatch is not requested. The graph below depicts specifically calls that were generated by the public over the past 3 years. The increase in public service calls continues to grow, consistent with a steady growth of our city population.

#### Cases

Cases are created from police service calls that require documentation by the responding officer. The following graph displays the upward growth pattern, and then a drop in 2020. It is interesting to note, that although our case numbers decreased due to the pandemic, the number of public generated calls above still increased.

#### Part 1 Crimes

Santaquin City participates in the FBI's UCR (Uniform Crime Reporting) program. In 2020, our department made the switch from summary-based reporting to incident-based reporting, which is known as NIBRS (National Incident Based Reporting System). The switch to NIBRS was required by the FBI as they retired the summary-based system in January 2021.

NIBRS reporting is much more in depth and provides the state and FBI with a more accurate depiction of the total crimes being committed. Where summary would report only the most severe crime, NIBRS reports all crimes committed within an incident.

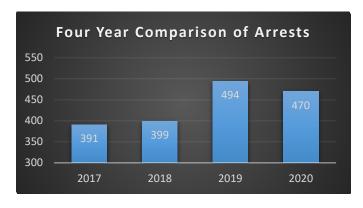

Below are listed the index crimes over the past 2 years.

#### Arrests

An arrest is counted when criminal charges are filed on an individual regardless if the individual was cited and released, served with a summons to appear in court, or physically arrested and booked into jail. The slight decrease in 2020 is most likely from the changes due to the Covid 19 pandemic.
